

MOROĞLU ARSEVEN

Cansu Özgüven specializes in IT law, mainly in privacy and data protection, e-commerce, fintech, emerging technologies, cybersecurity, and compliance law.

Cansu has developed a strong expertise in the realm of IT law, particularly within various national and international sectors such as information technology and communication, industry, healthcare, banking, finance, and e-commerce. She advises clients on compliance projects, consults, and prepares memoranda on the legal structuring of new technologies. Additionally, she assists clients in establishing the contractual basis of these innovations.

Cansu continues to enhance her knowledge through participation in several educational programs related to IT law within the European Economic Area.
