

## European Union Intellectual Property Office Launches Europe's First Ever Blockchain Platform for Secure Delivery in Real Time of IP Rights Information

*11 May 2021*

On 27 April 2021, the European Union Intellectual Property Office ("**EUIPO**") announced the launch of Europe's first ever blockchain platform for secure delivery in real time of IP rights documentation ("**Platform**").

The Platform makes available in real time, up-to-date documentation on 62 million trademark registrations and 17 million design registrations, all accessible via TMview and DesignView.

In addition, EUIPO announced plans to launch a decentralized, blockchain authentication platform to combat IP counterfeiting.

The Platform launch announcement is available in English at this [link](#).
