

LPG License Amendment Fees No Longer Apply in Turkey for Changes to Lots, Sections and Parcels

22 Mar 2017

LPG license amendment fees will no longer apply in Turkey for address changes to lots, sections and parcels. Address changes due to the authorized administration changing the name of the street, boulevard etc. were already exempt from the license amendment fee. However, the exemption is now widened to also apply to changes by the authorized administration to lots, sections and parcels, as well as consequential changes to business licenses.

The Board Decision Amending the Board Decision on Information and Documentation Required For License Amendment and Time Extension Applications Regarding Liquefied Petroleum Gases Market ("**Decision**") was published in Official Gazette number 29952, on 18 January 2017. Please see this [link](#) for the full text of the Decision (only available in Turkish).
