The spread of the COVID-19 also affects the transactions and proceedings in Turkish Republic of Northern Cyprus. In this context, the Official Receipt and Recordship Office ("**Office**") is now closed and non-operational. Since there is not an online system available, it is not possible to continue operations online and no provisions or decisions announced as to deadlines falling between the dates the Office is closed. Still, considering the exceptional circumstances, it is expected that any loss of rights during this period will be remedied.
